

Greetings to the Cuban people

In the name of the Hungarian - Cuban Solidarity Association I would like to interpret our greetings on the occasion of the 50th anniversary of the victory of the Cuban revolution. We would like to thank the you your great example. You show to the world that you think that slogan "A better world is possible" seriously. Since 1959 we learn from you solidarity and humanity. You teach us how to build a society based on cooperation, instead egoism. We express our solidarity and respect your hard struggle for independence and self-determination, which you have done for 50 years. Your example give us hope in our struggle against capitalism, for a more humane country, where is no exploitation, starvation, illiteracy and poverty.

We wish long life those heroes, who fought for the victory of the revolution, above all commandate Fidel and Raúl Castro.

László Kupi

President of the Hungarian - Cuban Solidarity Associaton

Budapest, 30 December, 2008
